Rescue & Fire Apparatus

RPM

Rescue Pumper by Marion

RPM

MARION

CHASSIS CHOICES

- Available on Spartan or HME custom chassis
- Available on most commercial chassis; International, Freightliner, Ford, Kenworth, Peterbilt

PUMP

- Hale or Waterous Midship pumps available - any pump, any size

PUMP MODULE & PANELS

- Enclosed pump compartment
- Side-hinged gauge panels with extra large pump access on the curbside
- Valves and plumbing are corrosion free by using materials of stainless steel, brass and high pressure hose - No galvanized plumbing
- Pump controls only on the roadside to maximize compartment storage
- LDH discharge under the cab increases available compartment space

PLUMBING

TANK

- 750 & 1000 gallon tanks - integral foam tanks - polypropylene tank with lifetime warranty

BODY

- 96" - 100" wide body
- Full-width hose storage

BODY CONSTRUCTION

- Fully extruded all-aluminum construction including an integrated substructure to eliminate corrosion

COMPARTMENTS

- Full depth rescue style

DOORS

- Extruded flush mounted or roll-up doors

ELECTRICAL SYSTEM

- Multiplex wiring is standard for ease of troubleshooting
- "As built" wiring diagrams created specifically for your apparatus
- Through the tank or in the hosebed

LADDER STORAGE

OPTIONS

- Hidden cascade bottle storage
- Crosslays with fully extendable roll-out trays built under cab for maximizing compartment space and accessibility
- 1st Due Compartment with a swing-out tool board for easy access
- Multiple Light towers and generators available
- LED backlit extrication reel and tool storage in front bumper extension
- Structural - 15 years standard
- Electrical component - 5 years standard
