Rescue & Fire Apparatus

AERIALS

MARION

CHASSIS CHOICES

- Available on Spartan or HME custom chassis

BODY CONSTRUCTION

- Fully extruded all-aluminum construction including an integrated sub-structure to eliminate corrosion

COMPARTMENTS

- Custom compartment design based on aerial selected and department needs

DOORS

- Extruded flush mounted or roll-up doors

AERIAL

- Aerial sticks 60' to 109'
- Aerial platforms 75' to 104'
- Available in mid-mount and rear-mount applications
- Angle range of -5 degrees

AERIAL CONSTRUCTION

- Steel ladders and platforms
- Hot dipped galvanized stabilizers and torque boxes on aerials and platforms

ELECTRICAL SYSTEM

- Multiplex wiring is standard for ease of troubleshooting
- "As built" wiring diagrams created specifically for your apparatus

AERIAL CONTROLS

- "Soft Touch" controls with locking mechanism for precise and exact ladder location
- "Smart Aerial" controls (standard on platforms) provides cab and body collision protection, automatic speed control, auto bedding, and monitors breathing air system

OPTIONS

- Wireless remote control to operate all aerial and monitor functions
- Hot dipped galvanized ladders
- Low profile models for reduced truck height

WARRANTIES

- Structural - 15 years standard
- Electrical component - 5 years standard
- Ladder - 25 years standard
